

Environmental Policy
Reducing our footprint

Darenth Print & Design Ltd are specialists in all forms of print and design.

We are dedicated to providing an unrivalled service for our customers.

- Providing your print and design services whilst reducing your carbon footprint.
- You can expect more from our environmental approach.

We are committed to working with our customers to form a partnership to reduce the impact we all have on the environment. We endlessly strive to increase our business and social responsibility to ensure that we look after the environment we live, and help others to do the same.

- Reduce mileage through better delivery routes
- Reduce the packaging wastage by introduction of customer recycling
- Increased internal paper recycling by 100%
- Reducing CO₂ emissions within our delivery fleet using alternative fuels.

Delivery

Our local stocking point offers customers an excellent personal service to help minimise the effect your business has on the environment.

- Being nearer to you we can deliver more quickly as well as reducing volume of traffic on the roads
- As automotive technology develops, we will look to introduce them into our fleet.

Environmental Services

Darenth Print & Design Ltd are committed to bringing new environmental initiatives to our customers. Our recycling schemes are easy to set up and convenient to use.

Reduce your impact by using

Darenth Print & Design Ltd.

- Recycling paper and packaging
- Reduction of CO₂ through our local stocking point
- Environmental appraisals to implement small changes that have a big impact on the environment
- Reduction of your supplier base by offering an unrivalled range of print and design related services
- Green Approved Products/ Environmental Products
- 100% recyclable or ECO products produced from a minimum 50% post consumer waste.

Paper Recycling

We offer a unique Paper Recycling Scheme for our customers that purchase paper from us. All paper we recycle is converted back into 100% recycled paper.

By using our Paper Recycling Scheme you can benefit from:

- Actively playing a part in the recovery of waste paper that would otherwise be sent to landfill or burnt
- The collection of your waste paper at the same time as your subsequent paper delivery
- Reducing your carbon footprint and business expenditure by removing the need for a separate paper recycling company.

By using **Darenth** Print & Design Ltd as your single source print supplier, your business will reduce its:

- Incoming deliveries (and therefore CO₂ emissions)
- Excess paper waste
- Reliance on multiple suppliers

**Printed on demand
to further reduce wastage
on 100% recycled paper**
